Are prepared to furnish at short notice the Kitchen Fumps of various sizes with Forcelain Cylinders which can't injure the water. This is a submerged deep well pump, now in use 2½ years without the expense of new packing. We make all sizes, capacity 36 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, throwing water on the roof of three story buildings, with one hand, and they will stand four to six men safely. We have not heard of one of them being overcome by fire, and yet they have been tested by over firty fires saving over \$50,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our bounded Suction and Ferce Globe Pumps, also invented by J. L. Kitchen is capable of being used as a Drive well pump and is well adapted to steamers and vessels of any class; one man can throw water on the roof of 3 story buildings. But it has a double ended lever and with four men is a very superior hand engine. The No. 2 Globe Pump is 12 inches in Diameter with 15 suction and 1½ discharge pipe and throws 40 to 100 gallons per minute, according to speed. The No. 3 Globe, 7 inches in diameter, 1 inch suction and 5 of an inch of discharge pipe, expable of 25 to 25 gallons per minute. These Globe Pumps we make of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they lift the water 25 feet perpendicular, and you can sit it in the house and draw yeter from springs or wells at great distances.

All kinds of steam and water pleas fitted at short notice; hose, hose-pipes and oouplings furnished here, &c.

All kinds of steam and water pipes fitted at short notice; hose, hose-pipes and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.

Considering that the general vote is small, this is a very flattering re- public singing by that sweet-warbling

a campaign in which party issues were has committed a very grave error, and to a great extent lest sight of, and men who have been diametrically opposed papal infallibility. in political sentiment to each other for years, were seen standing together and joining hands in a common effort to strike down some of the most oppressive measures that were incorporated in our carpet-bag Constitution.

That instrument yet contains many defective features which we hope to see amended in the course of time. For the present, let us be grateful for the crumbs of comfort which have fallen to ove lot in the adoption of eight important changes, which will do much towards curtailing the annual expenses of the State Government, besides relieving our University and enabling the General Assembly to make some arrangement for the settlement of the State debt.

We would be glad to see two other amendments added to the Constitution at the earliest day practicable : the ealargement of the homestead law to a tives of Virginia is exceedingly strong fee simple estate, and making the payment of the poll-tax a necessary qualification for a voter. We urged the lat- are on it are exceptionably able." ter measure before the Legislature last winter, but the Committee who had the matter under consideration, while they were in favor of the principle, reported adversely to it on the ground that it would violate the clause in our Constitution relating to suffrage and eligibility to office.

In our last issue, in alluding to the opinion of Messrs. McCorkle & Bailey against the constitutionality of our homestead law as applied to old debts, we took occasion to say that we were in favor of a homestead law which is not only exempt from sale for debt during a man's life, but which remains secure to him and his heirs forever, against any pecuniary obligations which they might incur.

The payment of the poll-tax as a requisite qualification for a voter is the law in the State of Georgia and has politicians who were identified with been found to work admirably. It places the administration of affairs in the hands of the tax-payers; and those of restoring them to their lost estate. who do not pay poli-tax have no right to complain of this.

In the present depicted condition of the State treasury, such a provision in our law will be of considerable assistance, not only in adding to the revenue of the State, but also in lifting up our common school system from its present prostration and placing it on its feet again. The Constitution provides that three-fourths of the poll tax shall go to the common school fund. It will be curious to examine the tax-lists, and see what a large proportion of the colored voters are enlisted as insolvents, and do not pay a dollar of taxation of any kind. In some counties the tax-lists show a very large majority of them have never paid the small pittance assessed on the poll. Able-bodied men who can earn their poli-tax by two or three days labor on the farm, are rated as insolvents, and never think of paying a cent in support of the Government which shields and protects them in their righteousness.

We do not think the organic law of a State should be tampered with for light and trivial causes. But we are in favor of any amendment that will increase our revenues and aid the cause of general education-which is now at such a low ebb in this State.

If the amendment relating to the sescions of the General Assembly was adopted on Thursday last, and we think it was undoubtedly, it will take over four years for the Legislature to alter the Constitution.

We therefore trust that the two new amendments which we have suggested will be introduced and passed by the General Assembly when it convenes next winter.

NOT A MYTH.

Notwithstanding the fact that a few pretentious journal, have ridiculed the New York Herald's discussion of Casarism, and have treated as idle and preposterous the assertion that Gen. Grant would be a candidate for the third term, yet we find the Washington Chronicle, Radical, hinting that Grant could be induced to be a candidate again if necessary, in order "to achieve a new triumph over the enemies of the nation's peace and prosperity." In that NORTH CAROLINA AND VIRevent the Chronicle says Grant " would not refuse to come forward again, as Washington himself would certainly have done in like circumstances, in order to save his loved country from menaced dishonor and perdition."

From this it would som that the Herald is not beating the air in warning the country of the dangers of Cæsarism, but that real cause for alarm exists which, if not arrested, may end in the throttling of the people's libertles and the atter demolition of our RePAPAL FALLIBILITY.

The Richmond Enquirer's error has done no great harm after all. If at was mistaken in saying that the sweetest singer in Rome was a North Carolina nun, it gave occasion for some deserved compliments to the ladies of this State. INFANT MORTALITY.

The papers are discussing the frightful mortality among infants in New York city. The reports show that nearly two-thirds of the deaths in that city last week were those of children under two years of age! The whole number of deaths for the week was eight hundred and eighty-nine; of which five hundred and thirty-three were infant children.

The Kansas correspondent of the St. Love Globe quotes Senator York as saying that Pomeroy can go into the canvass with more positive strength this fall than he did last, for the reason that a great number of prominent and able him at the time of his memorable and tragic defeat would now labor for him with an unwonted zeal, as an only means

The Intransigentes.

In the daily reports which reach us of snarchy in Spain the name of "the Intransigentes" is constantly being mentioned. The Intransigentes are secessionists from the Spanish Cortes, who retired from the legislative hall on the 1st of July. They are said to number less than ferty, and all belong to that extreme section of the Parliamentist Left not known as Ultra-Intransigentes. Small as they are, they have contrived to divide themselves into two camps. The retraomiento itself may, it is thought, lead to a second split, and Spain may see a third section of, perhaps, Ne-plus-ultra Intransigentes, who will carry out their threat of seeking the provinces, with a view to exciting rebellion against the Government. The country is in so unsettied a state that the provinces only await the action of a few club orators to incite them to revoit en masse and declare their independence. Barcelona, in which the Reds are all powerful, has already taken this step. The action of the Assembly, in voting the suspension of the constitutional guarantee, and investing the Government with extraordinary powers, has virtually pronounced its death warrant, and the sudden concentration of troops upon Madrid, and the passing of a bill conceding extraordinary powers to the Government in coping with the Carlist insurgents, has filled the Intransigentes with displeasure and alarm.

The following story is told of a certain young Viscount who had exhausted the patience of a generous father, and had failed to soften him sufficiently for the payment of the payment of the last batch of bills. The young Viscount is at the fete at the opera house, viewing existence and the gala in particular, with a jaundice eye, when a bright idea occurred to him. He flew out and drove home. "My father," he cried, "embrace me! Your son has just been named by the Shah a chevalier of the lion and the sun." "Impossible!" said the father, flushing with paternal pride. "Indeed, yes," said the son, "here is my patent," displaying to the credulous eye of his parent the programme of the opera, which had been Mail. printed in Persio. "Bless you, my son," exclaimed the Count, "I will pay your debts, and I offer you this trifle of pocket money," handing him notes to the amount of ten thousand france. The proud parent has yet been collightened.

SHOCKING BROOMSTICK ACCIDENT .-John Fay, aged 18 years, living in Danbury. Conn., met with a shocking accident last Friday. A party of young men, of whom he was one, were jumping over a broomstick, which rested across two barrels. When Fay made his jump he struck against the stick and knocked it down, and it turning with a sharp end up, he struck on it, cir inches into his body, piercing the bladder and making a terrible wound. He was taxen home and placed under medical care, and now lies in a precarious condition. ---
